During the eighteen years we have been in business many guests have asked us questions like,
"Which is the best waterfall?",
"What tour can you see the most birds on?",
"What is the most popular tour?"

We believe both of our waterfall tours are unique, each falls having beautiful scenic views from their trails but one is located on the windward and the other on the leeward side of the Koolau mountains. Birdwatchers will find the most birds on our Natural Highlights Adventure. We have had many guests telling us they loved all our adventures so it is really not possible to select just one popular tour.

Oahu has a *wide variety of unique ecosystems* including *coastline, dry forest, waterfalls and rainforest* as well as famous locations like Diamond Head Crater, Hanauma Bay and Sunset Beach. Because *we would like our guests to explore Oahu, see our island's incredible variation in terrain, flora and fauna*, and meet several of our friendly, entertaining and highly trained nature guides, we offer discounted combo tour prices.

Buy one tour at full price, get the second \$5.00 off!

Buy three tours, and instantly save \$10.00 from your total!

We have priced your second, third, or fourth tours more affordable to encourage you to explore Oahu with us and save money while going to both waterfalls, to see the birds on different trails, to visit many of our world-renowned sights and to create the best combo tours according to your own interests.

**You can go on the tours the same day or on different days, this offer is valid for 30 days from the date of the first tour.*
